

After knowing Louise for 44 years, I feel that the following passage from George Elliott's "Middlemarch" captures who she was. Read "Louise" in place of Dorothea.

"She had no dreams of being praised above other women. Feeling that there was always something better that she might have done if she had only been better or known better, her full nature spent itself in deeds which left no great name on the earth, but the effect of her being on those around her was incalculable. For the growing good of the world is partly dependent on unhistoric acts and on all those Dorotheas who live faithfully their hidden lives and rest in unvisited tombs."

*We would like to thank all those who have shown such love and kindness now and over the past three years. Your cards, letters, calls, visits and prayers have meant so very much. We have been truly blessed by such an outpouring of love and to be surrounded by so many who have lifted our spirits. Special thanks to Louise's team of doctors and nurses at OSU Medical Center, who fought the long battle alongside her and to the staff at Hospice of North Central Ohio, who so compassionately helped Louise complete her journey from this world to the next.*

*Please join us for a luncheon in the church hall to continue to celebrate her life and share with us your memories of Louise.*
